

# Little Feet Little Faces

## **Grade 2 (6.8 – 8 years)**

## **Academic Overview**

Our Grade 2 students at Little Feet Little Faces will be working with the Ontario Curriculum. Our OCT teachers will be using their expertise to weave in all academic areas of study with our artistic lessons to create a well balanced, creative and focused curriculum. Our Grade 2 class will have a maximum of 10 students so that it gives the teacher the opportunity to observe, develop and implement a program that suits every child's needs. Your child will be taught at their specific academic level of learning and the teacher will scaffold their lessons and individual modelling to help every child reach their full academic potential. All of our teachers are OCT certified and specialised in Elementary Education, with specific elite training, performance or engagement in at least 2 areas of the arts. This expertise and love of the arts matched with a Bachelor's degree in Elementary Education transcends to your child's love of learning and the arts.

Give your child the chance to shine and to try things they would normally not have access to. Allow them to build their self confidence and believe that anything is possible. The joy that children experience when they accomplish a new maths sum or spell a word with a tricky blend as the prefix ,or even remember an entire ballet string of choreography is amazing! This joy and feeling of accomplishment is what breeds independent, strong willed and creative children - the perfect beginning to a lifetime of challenge and achievements.
