

Piano & Guitar Lessons

Little Feet Little Faces offers private Piano & Guitar Lessons for little ones. Children not enrolled in our Preschool program are also welcome to attend any of our private specialized classes. If your child has never attended a Preschool program before where they are separated from Mom & Dad for the first time, this is also a perfect way to transition them into a school by having a private lesson in a one-to-one environment for a short period of time. It is also a great way for your child to become accustomed to the school before they start the Preschool Program. If your child is already enrolled in the LFLF Preschool program, as children engage in these specialized lessons, they have the opportunity to build on the primary attachments from their initial caregivers/teachers. Children use their secure attachments to develop a level of trust and safety as a base to explore new bonds along with friendships, with both their new teachers and new class friends.

Our specialized classes have been designed to **develop a power of concentration, improve the thinking process, promote literacy & numeracy, encourage spontaneous expression, promote self-confidence**, and most important to elevate creativity by **HAVING FUN!**

♡ Private Piano Classes

A qualified music teacher offers 25 minute private piano classes. The lessons focus on a variety of key concepts depending on the ability of the child including ear training, fine motor development and finger placement, reading rhythm and notation, improvisation, hand-eye co-ordination, musical terms, key identification and reading musical scores. Children learn at their own pace and lessons cater to your child's particular abilities and interests. Most important of all, children have a lot of fun while building a solid musical foundation they can take with them as they grow!

♡ Private Guitar Classes

Guitar lessons are offered as an extension of your child's musical development through piano. The focus of these lessons include learning the parts of the guitar, strumming and changing chords, and learning how to fret notes. In guitar lessons, children have a great time singing along while they play, setting them up for a lifetime of campfire jams and living room concerts!

Each student receives their own Piano and/or Guitar portfolio where parents can read about what skills their child learned in each of their lessons. They also receive their own Piano lesson music book, which can be taken home between lessons to practice and explore together with their families. Twice yearly (Winter & Spring), concerts are held to give children a chance to show off their best songs to family members and their other fellow musical friends in their class. Short excerpts of your child's practice lessons are also recorded during the year and are a great keepsake for the family of your young budding musician!

Limited spaces available – Private classes are 1:1 ratio
